Pavement Maintenance Contractors

Sealcoating

Signs you need sealcoating

- ◆ Asphalt is fading from black to gray
- ◆ Small cracks are showing
- ◆ Surface sand is wearing off revealing the rock below
- ◆ Sandy deposits are collecting in the corners of your lot

Benefits of sealcoating

- ◆ Prevents water from penetrating the pavement
- ◆ Reduces the impact of ultraviolet rays
- ◆ Helps the pavement hold onto its oils and aggregate
- ◆ Makes your pavement look new
- ◆ Extends the useful life of your asphalt
